CULTURAL SIGNIFICANCE
OF CARD LEVELS

Silver, turquoise, white pearl/shell, coral, and jet carry profound spiritual, cosmological, and cultural meanings. They are intertwined with the Navajo Creation Story, representing the sacred cardinal directions, the holy mountains, and the fundamental elements of life.

Silver (Béésh ligaii) literally meaning "white metal". It serves as a profound medium for cultural preservation, spiritual harmony, and economic resilience, rather than just a decorative material. When combined with traditional stones, it visually anchors the Diné story of survival and connection to the natural world. This serves as the introduction level of the Navajo Gaming Rewards program.

The white shell (Yoolgai) holds immense spiritual, geographical, and ceremonial significance, representing the direction East, the dawn, and the fundamental concept of Hózhó (balance, harmony, and beauty).

After earning 5,000 tier points, the new Pearl tier card provides access to discounts on food & retail, as well as access to special birthday, veteran & other promotions.

Coral (Yolici) meaning for "red pearls", carries profound significance as a sacred symbol of the spirit of water, vital life force, and elite social standing.

Coral members are eligible for the annual tier gift giveaway. Giveaway choices are \$100 bonus free play, \$100 T&R Shopping Spree, Discounted Cruise Trip for Two. Complimentary Drinks, 2X point multipliers every third Wednesday.

Turquoise (doot'izhii) is a sacred "living stone" to the Navajo, symbolizing protection, healing, and harmony with nature. Believed to be a piece of the sky brought to earth, it plays a vital role in creation

stories, spiritual ceremonies, and daily life to ensure health and good fortune. Enjoy a number of exclusive benefits, Cruise trip options, complimentary drinks, VIP access & 3X point multiplier every third Thursday. \$300 bonus free play, \$300 shopping spree & more.
